Plastic pollution is ubiquitous throughout the marine environment, yet estimates of the global abundance and weight of floating plastics have lacked data, particularly from the Southern Hemisphere and remote regions. Here we report an estimate of the total number of plastic particles and their weight floating in the world's oceans from 24 expeditions (2007-2013) across all five

You have a neck that is 7 feet long (2.1 meters). Every now and then, you spot a group of humans driving around on a safari taking pictures of you. But it's not just your neck and their cameras that separates you from the humans. Perhaps the biggest difference between you and your giraffe friends and the humans taking your picture is that nearly every decision you make provides an immediate ...
