Fashion Industry Contributes to Society: It's Personal, Fun, Political & Reflective This is a reductive reaction, and one that is founded more in ignorance than reality. Just like how some people write-off sports as silly 'games' with no meaningful impact on the world, fashion falls victim to the same attitude.

Most fashion programs don't get into the details of business. They focus primarily on grading, flat sketching and other manual skills, but place little emphasis on how to market, brand and sell. What good is creating a product or collection if you don't know how to get it in front of your customer and sell it? Factory45 is all about starting lean, testing the product at market, and going ...

In sewing and fashion design, a pattern is the template from which the parts of a garment are traced onto fabric before being cut out and assembled. Patterns are usually made of paper, and are sometimes made of sturdier materials like paperboard or cardboard if they need to be more robust to withstand repeated use. The process of making or cutting patterns is sometimes condensed to the one ...
